# Building Momentum This May

As we head into May, jobsites across the Northwest are picking up speed—and so are we.

Longer days, warmer weather, and full schedules mean one thing: it's time to stay prepared, stay safe, and keep building. At Bigfoot Construction Supply, we're here to support that momentum every step of the way.

## Recognizing Women in Construction – Mother's Day

With Mother's Day around the corner, we want to take a moment to recognize the women who help build this industry—both on and off the jobsite.

From project managers and engineers to tradeswomen, purchasing teams, and the support systems at home—women play a critical role in keeping this industry moving forward.

At Bigfoot, we're proud to work alongside so many strong, hardworking women who bring leadership, skill, and perspective to everything they do.

To all the moms out there—and all the women helping build the future of construction—**THANK YOU.**

## Strengthening Partnerships – Sphere 1 Annual Conference

This month, Bigfoot Construction Supply will be attending the Sphere 1 Annual Conference in Marco Island, Florida—an event centered around excellence, innovation, and partnership within our industry.

This is a valuable opportunity for our team to connect directly with the vendors and manufacturers behind the products our customers rely on every day.

By strengthening these relationships, we're able to:

- Improve product availability
- Stay ahead of new innovations
- Continue delivering competitive pricing
- Ensure we're bringing the best possible solutions back to our customers here in Washington

We're always looking for ways to get better—and this is one more way we're investing in that.

## ☀️ Ready for the Heat – Jobsite Essentials

Warmer weather is here, and with it comes a new set of jobsite demands.

Bigfoot is fully stocked with the products you need to keep your crews safe, cool, and productive:

- 💧 Hydration & Water Service
  - Reliable water supply for jobsites
  - Hydration stations and bulk options available
- 🧊 Cooling Gear
  - Cooling towels / cold rags
  - Designed to help crews stay comfortable in rising temps
- 🕶️ Sun Protection
  - Safety glasses with tinted and UV protection
  - Gear built for long days in direct sunlight
- 🧤 Warm Weather PPE
  - Lightweight, breathable high-vis gear
  - Gloves designed for comfort without sacrificing durability

As temperatures rise, preparation matters. Let us help you get ahead of it.

## Bigfoot Work Anniversaries

### Tristan Stayner (1yr)

**Tristan Stayner** joined Bigfoot with a background as a glazer, bringing real field experience and a strong understanding of what it takes to get the job done on site.

Since stepping into his role as a Service Specialist, Tristan has become a key part of our day-to-day operations—working directly with field teams and making sure they have what they need, when they need it. He currently covers deliveries across the North and East sides of Washington, helping extend Bigfoot's reach across the region.

Known for his laid-back attitude, quick wit, and strong communication skills, Tristan is someone both customers and teammates enjoy working with.

### Louis Isaacs (1yr)

**Louis Isaacs** is also celebrating his one-year anniversary with Bigfoot, serving as a Service Specialist supporting our downtown Seattle customers.

He plays a critical role in making sure orders hit the jobsite right on time, keeping projects moving without delay. Whether it's coordinating deliveries or sourcing materials from local vendors, Louis is constantly working behind the scenes to make things happen—often turning around requests for next-day fulfillment.

Louis takes great care of our customers and brings a true "we first" mentality to everything he does.
