To our suppliers and contractors.

STAY SAFE WORK SMART

TOGETHER, WE BUILD A SAFER TOMORROW.

As August arrives, we're reminded that another busy construction season is quickly coming to a close. While there is still plenty of work ahead, now is the perfect opportunity to begin preparing for the transition into fall.

Changing weather means changing jobsite conditions. Cooler mornings, shorter daylight hours, increased moisture, and unpredictable weather all create new safety challenges for crews across the Pacific Northwest. Whether you're preparing for commercial projects, service work, or major infrastructure jobs, having the right PPE on hand before demand increases helps keep projects moving safely and efficiently.

At Bigfoot Construction Supply, we're already preparing our inventory for the changing season. From gloves and hard hats to rain gear, high-visibility apparel, eye protection, fall protection, and more, we're committed to making sure our customers have the products they need exactly when they need them.

As always, our team is here to help recommend the right products for your crews, your jobsites, and your budget.

Prepare today. Protect tomorrow.

Featured Vendor Spotlight: **KStrong** – Unrivaled Safety

Fall protection continues to be one of the most important components of every safe jobsite. That's why Bigfoot Construction Supply is proud to partner with KStrong (KS Group), one of the fastest-growing names in fall protection across North America.

For more than 20 years, KStrong has been designing and manufacturing comprehensive fall protection systems used around the world. Their commitment to innovation, quality, and worker safety has positioned them as one of the industry's premier manufacturers, and we're excited to continue bringing those products to contractors throughout the Pacific Northwest.

Whether your crews are working on rooftops, structural steel, elevated platforms, confined spaces, or industrial maintenance projects, KStrong offers solutions engineered to meet demanding applications while maintaining exceptional comfort and reliability.

Their product offering includes:

- Full body harnesses
- Self-retracting lifelines (SRLs)
- Shock absorbing lanyards
- Vertical and horizontal lifeline systems
- Anchorage connectors
- Rescue and confined space equipment
- Engineered fall protection systems
- Comprehensive OSHA-compliant safety solutions

No matter the size of your operation, Bigfoot can help identify the right KStrong solution for your team.

Smarter Safety with the KStrong Compass App

One of the most exciting innovations from KStrong is the free Compass Mobile App—the first free mobile application designed specifically for fall protection asset management.

Instead of relying on spreadsheets, handwritten inspection logs, or paper binders, Compass gives safety managers and crews instant access to their equipment inventory directly from their mobile device.

Some of its standout features include:

- **Automated Inspection Reminder System** - Never miss another required inspection. Compass automatically reminds users when equipment inspections are due, helping organizations stay compliant with OSHA requirements.
- **Equipment Asset Management** - Track every harness, lanyard, SRL, connector, and fall protection device from one convenient platform.
- **Inspection History** - Maintain complete inspection records that are easily accessible during audits or internal safety reviews.
- **QR Code Equipment Tracking** - Quickly identify equipment by scanning QR codes to view inspection history and asset information instantly.
- **Mobile Access Anywhere** - Whether you're in the office or on the jobsite, Compass keeps your safety information at your fingertips.

If you'd like to learn more, ask your Bigfoot representative for a demonstration or browse the enclosed KStrong catalog.

Getting Ready for Fall

Although summer isn't quite over, August is the ideal time to evaluate your current PPE inventory before seasonal demand begins to increase.

Ask yourself...

- Are employee hard hats due for replacement?
- Do your crews have adequate rain gear?
- Are high-visibility garments still OSHA compliant?
- Have your harnesses and lanyards been inspected recently?
- Are gloves appropriate for cooler temperatures and wet conditions?
- Is your first aid equipment fully stocked?

Preparing now helps avoid delays later when projects become busier and weather becomes less predictable.

Our team can assist with complete PPE evaluations, product recommendations, contractor-specific solutions, and large project planning to ensure your crews remain productive and protected throughout the remainder of the year.

Bigfoot Work Anniversaries

TJ O'Rourke

From day one, TJ has brought a wealth of industry knowledge and an unmatched work ethic to our team. As Seattle Branch Warehouse Manager, he's become known as the person everyone can count on—always willing to jump in, solve problems, and help wherever he's needed. Whether it's supporting deliveries, assisting customers, managing warehouse operations, or lending a hand to a teammate, TJ approaches every challenge with a positive attitude and a can-do mindset.

His reliability, versatility, and commitment to the success of those around him have made him an integral part of Bigfoot Construction Supply.

We're incredibly grateful for everything TJ does each day and are proud to celebrate another milestone with him.

Congratulations, TJ, and thank you for everything you do!

Andrew Stanton

As our Kent Branch Warehouse Manager, Andrew has become an invaluable leader and teammate. His strong work ethic, dedication to customer service, and positive attitude make him someone people naturally enjoy working alongside. Every interaction—whether with customers, vendors, or fellow employees—is handled with professionalism, care, and a genuine desire to help.

Andrew's commitment to creating a welcoming, organized, and dependable branch has played a significant role in the continued success of our Kent location. We're fortunate to have him leading the team there and appreciate everything he brings to Bigfoot each and every day.

Congratulations, Andrew, and thank you for another outstanding year!

Logan Wagner

Since joining the team, Logan has embraced a unique dual role by serving both as a member of the Outside Sales Team and as Bigfoot's Director of Web. Whether he's building relationships with customers, developing new business opportunities, creating marketing campaigns, producing monthly newsletters, or helping strengthen the Bigfoot brand, Logan continually looks for ways to help move the company forward.

His passion for customer service, commitment to innovation, and willingness to take on new challenges have helped expand Bigfoot's reach while supporting both our customers and internal

team. We're grateful for his dedication and look forward to seeing everything he'll continue to accomplish in the years ahead.

Congratulations, Logan, and thank you for your continued commitment to the Bigfoot team!
