Nikole Buck

Nikole, our **Accounting Manager** and an integral part of Bigfoot's day-to-day operations.

Accounting might not always be the most visible part of a construction supply business, but anybody who works behind the scenes knows just how important it is.

Between managing invoices, keeping records organized, staying on top of outstanding items, and making sure our team has the information it needs, countless moving pieces require attention every day.

And Nikole has done a fantastic job helping us stay on top of it all.

Her attention to detail, willingness to take ownership, and commitment to keeping our accounting operations running smoothly have made a real difference over the past year.

Nikole has quickly become somebody our team can count on, and we truly appreciate the effort and dedication she brings to Bigfoot.

We're grateful to have Nikole as part of the Bigfoot family and look forward to many more years of working together.

Congratulations on your first anniversary, Nikole! Thank you for everything you do!
